The Power of Versatility

- Standard top stacking
- Optional rear stacking or KIPFold
 NEW 15.6" smart tablet-like touchscreen
- KIP Contact Control Technology
- Compact by design
- KIP System K Print Management Suite
- Single Pass Black for B&W printing
- Full CMYK for Colour printing
- Quick Switch between rolls and stacking locations
- Fast media installation with Simple end cap design
- Auto roll switching provides less user intervention
- Fast print production when you need it most
- Consistent print quality

Contact Control Precision Imaging

KIP 700 C Series systems utilise Contact Control Technology (CCT), the ultimate wide format imaging solution. The ability to control the placement of the toner particles through direct contact at every stage of image development ensures the highest level of accuracy and precision quality in the production of every colour or black & white image.

Advanced toner technology controls the image with colour registration that delivers smooth colour and expressive black & white image quality. True black printing ensures bold rich lines and fine details with pinpoint accuracy that are easy to read.

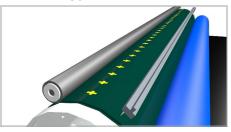

WHEN YOU

IMPRESSION

NEED TO MAKE AN

Contact Array Charging Technology (CAC)

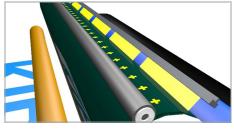

Direct contact for consistent electric charge over the entire surface of the organic photoconductor.

- Stabilises image quality
- Eliminates multiple system parts to include corona wires, cleaning pads, grid screens, filters and related airflow fans to reduce maintenance visits
- Eliminates ozone

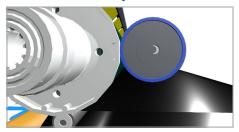

Calibrated LED Array

The calibrated LED print head creates a uniform latent image and includes KIP's Image Smoothing Technology.

- Precision tuned for luminance to generate high quality text
- Smooth, consistent colour shading & grayscales

Contact Development

Direct application of toner without "developers" results in pinpoint placement on the photoreceptor's latent image. Advancements in system components further enhance image quality.

- Uniform pixel creation
- Produces improved print quality

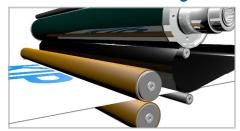

Contact Transfer

Transfers the image onto the media with precise alignment for accurate colour registration through direct contact.

- Superior colour registration
- Maintains sharp lines & legibility of text

Contact Pressure Fusing

Heat & pressure fusing ensures permanent, high durable images.

- Highest durability
- Waterproof images
- Lightfast
- Streak free, fluorescent marker use

700 **SERIES**

When choosing a new print system **Every Detail Matters**

It's not just one component that makes a great print system, it's a combination of features and benefits that create a dependable print system.

KIP's consistent speed technology ensures there is never a delay when printing complex files or high coverage images. Every document is printed at full rated engine speed ensuring that schedules and timelines are met day after day.

Workflow Automation simplifies everyday multi-step printing processes. Produce sets of black & white, colour, or mixed sets of images and automatically, size, rotate or collate with touch of your fingertips

Protecting your investment, your data and your time are primary factors we build into the design and delivery of our products. Accessibility to engine performance, toner & media requirements, and overall system health are easily accessed via touchscreen, desktop, or web applications.

From our powerful print engines and smart software technology to our incredible image quality we have designed a KIP 700 C Series to meet the demands of today and tomorrow's print requirements.

The benefits of **Versatility**

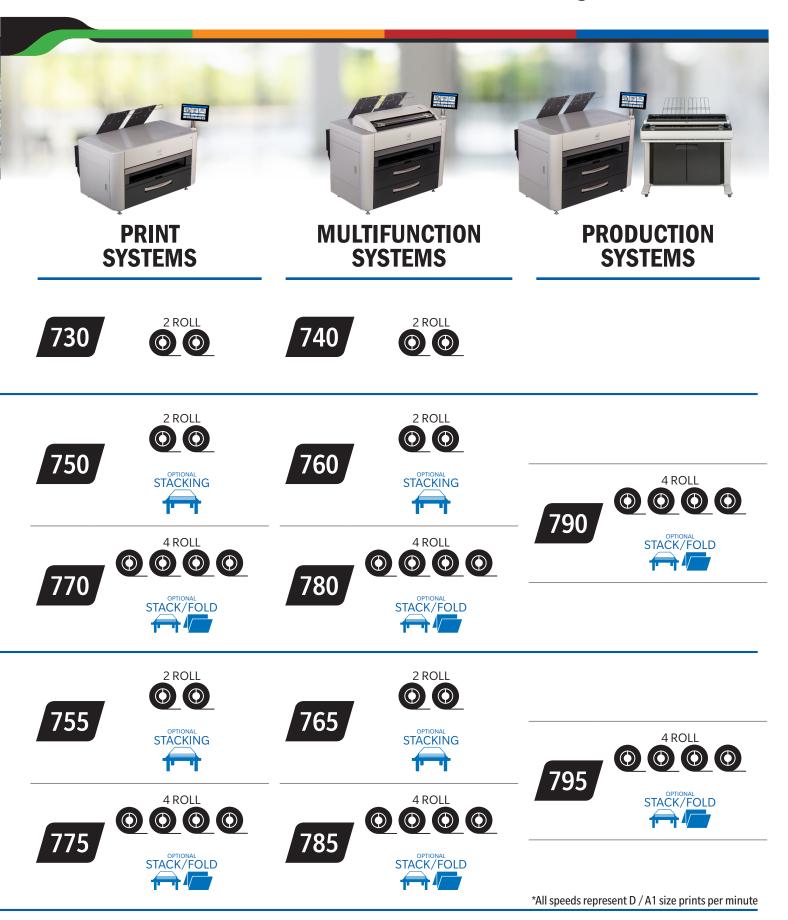

- Three Models Low, Mid & High Volume
- Three Production Speeds
- Twelve Product Configurations
- Best in Class Technology
- True Touch Productivity
- Industry Leading Software KIP System K
 Smart Printing | Data Protection | System Wide Reporting

The Power of Versatility

TRUE SMART TABLET PRODUCTIVITY

PRINT, COPY & SCAN BRILLIANTLY

The NEW 15.6" KIP touchscreen has true smart tablet easy function and offers unmatched productivity with intuitive features to brilliantly automate Print, Copy, and Scan workflow.

- Maximise efficiency Copy and print or scan and print at the same time
- Interrupt large print runs for quick one-off prints or copies
- KIP's Area of Interest on-screen editing let's you quickly print only the section of information you need
- KIP Cloud Connect let's you print from or scan to cloud services for project collaboration anytime, anywhere
- Pictorial user guides & QR code for videos
- Automate workflow with template creation
- One-touch access to features in 12 languages

True smart tablet function that is easy for new or experienced users

Real-time Image Preview with Area of Interest Image Editing

Auto De-skew for Copy & Scan

Pictorial Feature & Operator Guide

KIP Smart Link QR Code Access to Operator Guides for Smart Phones

KIP System K Software

KIP System K Software Suite offers unmatched flexibility for printing projects.

KIP ImagePro

- Driverless PC App Printing
- High Definition Image Viewer with thumbnail preflight view
- Workflow Automation Templates
- Easily combine single or multi-page files from one or more file locations into a collate set
- Area of Interest for image editing
- Drag/drop and cut/paste to reorder
- Realtime access to manage print queue to maximise job priority with live printer status
- Control image scaling by percentage or single click automation to preferred page size
- Unlimited Site License no servers or licensing required

KIP PrintPro.net

- Driverless browser printing submission tool No application or installation required
- Supports Windows, Unix, and MAC OS browsers for full control over printing parameters
- Remote printer administration and queue management
- Frees up PC, fast print job processing on KIP System K Controller
- Control image scaling by percentage or one touch automation to preferred page size
- Unlimited site license, no server or licensing required best for small work groups

KIP Windows Driver

- Microsoft WHQL Certified
- Windows 10/11 32 and 64 bit operating systems
- Use from a variety of Windows based programs including Adobe, Office and CAD Applications
- Single Source Installation No need to install multiple drivers
- Workflow Automation Templates
- Easily view and manage Job Queue and Job History with real-time printer status

KIP Accounting and Cost Center (Optional)

- Track projects and printing costs. KIP Accounting allocates print and copy volumes to departments and projects.
- Easily, print or email visually attractive reports for copy, print and scan production directly from the application.
- Enhance print system access and security
- Track Copy/Scan/Printing
- Control user features including queue management (plus many more)
- LDAP import of user information
